SUMMARY

Passionate and detail-oriented MERN Stack Developer with hands-on experience building full-stack, responsive, and user-friendly web applications. Proficient in MongoDB, Express.js, React.js, Node.js, JavaScript, and REST API development. Skilled in designing scalable backend systems, integrating APIs, and implementing modern UI/UX with component-based architecture and state management. Eager to contribute to dynamic teams and deliver high-performance, end-to-end solutions.

WORK EXPERIENCE

Full Stack Developer - Codesmiths Technologies Pvt Ltd

Jun 2025 - Present

- Built full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js), developing RESTful APIs, managing databases, and creating responsive user interfaces, while collaborating via Git/GitHub, code reviews, and agile workflows to deliver scalable and high-performance applications.

Full stack Intern - Codesmiths Technologies Pvt Ltd

Feb 2025 - May 2025

- Assisted in developing full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js), building responsive and accessible UI components, creating RESTful APIs, and integrating frontend with backend services while gaining hands-on experience in scalable application development.

PROJECTS

- Habitat (U.S. Law Firm Project):** Developed responsive attorney and client management interfaces using React.js and React Router, following strict linting and type-checking standards. Built reusable, scalable components with a focus on clean, maintainable frontend architecture.
- Aksa by iSecurify:** Cybersecurity Platform: Built a full-stack system using Wazuh, Node.js, and React.js with responsive dashboards in Tailwind CSS. Integrated RESTful APIs for real-time logs and monitoring, with secure form validation using Formik and Yup.
- LuxeVa:** Designed and developed a dynamic, responsive e-commerce application using the MERN stack (React.js, Node.js, MongoDB) with Context API for state management. Integrated RESTful APIs, enabling real-time product data and optimized cart functionality.
- LeafGuard — AI Plant Disease Detection:** Built an AI-powered plant disease detection platform integrating a computer vision ML model with a React.js frontend and Node.js backend. Enables real-time leaf image classification with confidence scores and treatment recommendations via a responsive dashboard.
- SecureScan:** Built a full-stack AI-driven platform that scans and analyzes domains for security vulnerabilities, threats, and risk assessment in real-time.
- GrandDine Restaurant:** GrandDine Restaurant Website is a modern, responsive restaurant web application showcasing menus, categories, and a premium dining experience with a clean UI and smooth user interactions.
- Aurelia Luxe:** A modern fashion e-commerce platform with a premium UI/UX, built with React and Tailwind CSS, featuring advanced filtering and smooth user interactions.
- Nova Converter:** Nova Converter is a premium, privacy-first file and data conversion suite. Built with a React (TypeScript) frontend and a FastAPI (Python) backend, it processes all document conversions—including Markdown-to-PDF, PDF-to-Markdown, image transformations, and an intelligent dynamic JSON ↔ CSV translator.

EDUCATION

Bachelor of Technology in Information Technology

Sep 2022 - April 2026

Silver Oak University

- SPI : 9.88 / CPI : 9.65

Higher Secondary Certificate - HSC

June 2020 - March 2022

Sardar Patel Kelavani Mandal - Jetpur

- Percentage - 79.38

ADDITIONAL INFORMATION

- Technical Skills:** Figma, React js, Next.js, Tailwind css, Node js, HTML, CSS, Javascript, Typescript, MongoDB
- Soft Skills:** Time Management, Problem Solving, Communication, Leadership
- Languages:** English, Hindi, Gujarati
- Certifications:** AI & Data Analytics (Green Skills – AICTE, Shell, Edunet) | AI: Transformative Learning – TechSaksham (Microsoft, SAP), NPTEL: Java, IoT, Design And Analysis of Algorithms
